ABOUT THIS CATALOG: Roller-Pigeon.Com provides an online forum in which roller breeders from around the world can come and partake in All Roller Talk, a roller pigeon hobbyist community. This popular forum is frequented by beginners to very experienced master breeders.

RPDC has been serving this community since 2004 with various online services and features in an effort to assist the Roller Fancier in getting the most from the hobby.

In our continuing efforts to serve this community, we began to carry and supply an assortment of about 100 of the most popular roller pigeon products a fancier will need.

As we are primarily an online community, of course our site members and visitors can either order online using our secure servers or call during business hours and place an order over the telephone.

Our focus is on providing excellent customer service that meets and exceeds all expectations.

WHAT OUR CUSTOMERS HAVE SAID ABOUT US:

"...I received my goods. Everything was perfect...as always! Thanks, MB.

"...Thanks very much for the quick service. I'm looking forward to receiving the book. Regards, G.

"...Joni, just wanted to thank you and Tony for my order, I won't hesitate to use you again. Thanks JS

"Thank you Joni and Tony for your quick service I really appreciate everything. You guys are awesome that's why I'll keep coming back to buy products from you guys, just to let you guys are the best in the business because of your knowledge and caring of your customers. Thanks GG

"I received my two birds - in great shape. Thank You. A truly great impression in dealing with you folks. First class - will order again. Thanx. BKR

We are always looking for better ways to serve our customers and community members. We hope this catalog will serve to that end.

TABLE OF CONTENTS AND INDEX: We have provided a Table of Contents so that you can go right to the section for the type of supplies you need. We have also provided an Index in the back of the catalog so that you can look up products by name and be directed to the specific page to find the item you need.

ORDERING: Orders received after 1 PM Central Time will be processed the next business day. We accept all major credit cards and ATM cards with the Visa or MasterCard logo. Orders of Books only will go by US Post Office Media Mail.

PLEASE NOTE: For your convenience, we will at our discretion, replace an out-of-stock item with a similar or better product and only charge the lower price!

SHIPPING: We ship all orders via US Post Office. All packages are sent with a Delivery Confirmation that can be tracked online with a tracking number.

We DO NOT charge a "Handling Fee", we only charge what the Post Office charges to ship out your package. Medications & Antibacterials

4in1 POWDER for Pigeons 3.53oz (100gms)
Item #: FR6020.....\$22.50

This is another of those “must have” medications for every loft. It is a very popular product that works wonders for those common ailments in your birds. Since several disease symptoms can mimic one another and this product is like a shotgun blast covering several common pigeon ailments in young birds and old ones alike.

4in1 TABLETS for Pigeons 25 Tabs
Item #: FR6014.....\$9.95

Four in one tablet for paratyphoid, canker, coccidiosis and especially E.coli. Composition: Furaltadone 20%, Ronidazole 7%. For individual Treatment: 1 Tablet per day for 7 days. Not for animals or birds to be eaten.

ALL-in-ONE Powder 8oz (Replaces our 5in1)
Item #: F1315.....\$45.95

We are looking for a product that gives us the best value and covers the largest range or health issues. All In One is a powder that may end that search. Coccidiosis is probably the most common pigeon health problem and All In One contains amprolium and is listed as both a treatment and a preventative for coccidiosis. Canker (trichomoniasis) another common pigeon health issue is both preventable and treatable. All In One contains the safe drug, Ronidazol, an effective drug. The third most common health problem is worms, and All In One contains lavamisol which treats for most worms with the exception of tape worms. Tylan is the drug of choice by man for respiratory and you'll find it in All In One. The fifth ingredient includes probiotics and other beneficial means to rebuild gut bacteria and relieve stress. 1 tsp. per gal for 5 days. Makes 28-30 gallons.

Spartrix Tablets 50pk
Item #: F567.....\$22.50

As a treatment for canker (trichomoniasis) in roller and racing pigeons. A single oral dose is effective against Trichomonas columbae, the cause of pigeon canker. Dosage 1 tablet per adult pigeon (i.e. 10 mg per pigeon). Half tablet per young pigeon. A single dose is usually sufficient. Cases which do not respond within 3 days may be treated again.

Sulmet Liquid 12.5% Antibacterial 16fl oz

Nutritional Health Supplements

Braggs Apple Cider Vinegar 16 fl. Oz
Item #: MJACV.....\$8.50
 Braggs Apple Cider Vinegar. The real deal. Complete with all the vitamins and nutrients, not a cheap store bought caramel color imitation.

I use this brand myself for indigestion, heartburn and when I feel flu symptoms coming on. I love it. Organic apple cider vinegar is the best on the market. It contains the mother of vinegar. Old timers used it for years, but don't be fooled by cheap, non-organic products. Helps your birds stay healthy. 1/2 oz. to a gallon.

Dr. Pigeon's Brewers Yeast DeBittered 1.5lbs
Item #: K7038.....\$12.95
 Dr. Pigeon's De-bittered Brewer's Yeast
 A great source of vitamin B complex.

Add 5 tablespoons to 5 lbs. of lightly oiled feed.

Natural Antwerp Pickstone 400gms
Item #: FR5032.....\$4.50
 Natural PICKSTONE consists of a dozen natural ingredients. Natural PICKING STONE offers an important supplement of natural minerals and oligo-elements. Natural PICKING STONE does not contain

any appetite stimulating substances and meets a natural habit of the pigeon.

The pigeons will only pick at it when they really feel a need, e.g. during the breeding season, after a race, or during the molting season. In the course of the years Natural PICKING STONE into a standard reference for the racing pigeon's feed.

It is sold in over 40 countries. Over a quarter of a million pigeon fanciers feed Natural PICKING STONE to their pigeons. It is by far the most popular picking stone for the racing pigeons in the world. Natural PICKING STONES are freshly made every week and an essential element in the modern racing pigeon's feed.

Composition:

Clay, seaweed, magnesium, grit, redstone, oyster shells, stomach grit, charcoal, etc.

Dosage Treatment:

The product should be made available to the pigeons during the whole year.

Natural Antwerp Vitamineral 1.5lbs
Item #: FR5039.....\$4.50
 Natural launched Vitamineral in 1952. By doing so Natural became the first company to produce a special vitaminised mineral mix for racing pigeons.

VITAMINERAL has won the confidence of Belgian pigeon fanciers in no time as it meant a breakthrough in the feeding habits of the racing pigeons. Natural has constantly improved the composition of VITAMINERAL.

VITAMINERAL contains all the minerals necessary for a balanced diet. In addition to essential minerals, VITAMINERAL contains vitamins A, D, and E, which are required for the assimilation of these minerals. These vitamins have a positive influence on the growth of the youngsters and the fertility.

VITAMINERAL is a product the pigeons need all year round. Vitamineral should therefore always be present in the pigeon loft. The pigeon will only eat it out of realphysiological need. There will be marked consumption when they return from a race and during breeding and moulting. The breeders ingest up to 650 mg of calcium per day when they nourish their youngsters. VITAMINERAL accelerates the pigeon growth and enhances their resistance.

Directions:

VITAMINERAL should be available to your pigeons at all times, ideally provided for them in gallipots.

Pigeon Health Management by Dr. Colin Walker
Item #: F881.....\$79.95

Well-known identity in both avian veterinary circles and the pigeon racing fraternity, Dr. Colin Walker has put pen to paper. The result is a stunning update of modern pigeon veterinary knowledge written in an easy-to-read manner with an accent on real information that any fancier can use. His 20 years of avian veterinary practice, together with his 30 years of experience racing his own team of pigeons with considerable success, place him in a unique situation to provide fanciers world-wide with practical up-to-date veterinary information that they can use to improve their birds' health and racing performance.

Breeding and Inheritance in Pigeons by Axel Sell
Item #: BK088.....\$69.95

This book is mainly written for the active pigeon breeder. It explains the most important principles of heredity and demonstrates with simple examples how these principles can be applied in various breeding programs. The great range of colorations in the domestic pigeon always has fascinated fanciers. The numerous color photos and tables in the book will be of help for the beginner and also the advanced fancier to identify and understand the interrelations of the many different colorations.

Hardback; 202 pages.

White Pigeons, The Color of Money by Jerry Gagne

By Frank Harper, well known Vet and Fancier. Easy to understand, illustrated in a color booklet that takes the fancier through the causes, signs and treatments for each respective problem. This book is intended to help explain and identify some of the signs of respiratory trouble the fancier might see.

Paperback 64 pages.

Problem Droppings Explained
Item #: F9041.....\$19.95

By Frank Harper, well known Vet and Fancier. Sets out to explain some of the reasons and causes of the changes that might be seen in droppings. Fully illustrated in color, signs and treatments. Explains the usefulness and limitations of laboratory examinations, helps the fancier make use of his own microscope and suggests a sensible approach to treatment.

Paperback 59 pages.

Understanding Pigeon PMV (Paramyxovirosis)
Item #: F9001.....\$7.95

The sole purpose of this booklet is to explain to pigeon breeders what PMV is, (it's a scourge which at present affects pigeons), and to stress the need to vaccinate the birds and to take hygienic precautions. The pigeon breeder will then understand that if there is an illness in one of the lofts, washing hands, changing shoes and overalls before going from loft to loft may prevent a catastrophe. The book includes sketches, photos and vaccinating info.

Paperback 24 pages.

DVD Roller Interview Series

By special arrangement, we are proud to be the exclusive distributor of the DVD Roller Interview Series by Johnny Reyes:

This is a special DVD Roller Interview Series of recorded interviews conducted by Johnny Reyes. Videos contain excellent video of kits, lofts and kit boxes, hear these fanciers tell it like it is. No punches pulled.

Just like being there in their backyards as you listen in on informative and educational interviews between Johnny Reyes and these legendary roller fanciers. Now you can get it straight from the source when you watch these very special DVD's from the comfort of your own home.

I watched these videos with a smile and fascination as I listened to these legendary roller breeders share their knowledge and discuss the many aspects of raising, flying and breeding roller pigeons.

These DVD's are truly a bargain and belong in the serious roller fanciers pigeon library. Thank you Johnny for making these recordings available to the Roller-Pigeon.Com community.

Be sure to ask about newest additions to the DVD Roller Interview Series with Johnny Reyes. Just call and ask.

Breeding Loft Accessories

Crown 8 Compartment Breeding Pens
Item #: F1600.....\$275.00
 Each of the cage's eight large compartments have spring loaded doors for easy access. Each compartment is divided by a 5" wide feed and water compartment with spring loaded doors. Please note that this picture includes water and feed containers which ARE included with the unit and blue "mess shields" that are NOT.

All steel wire is plastic coated and the corners are coated steel. The bottoms are plastic coated wire which keeps the birds up off the floor. Comes with 8 plastic removable floors which may be hosed down. Built on casters and the whole unit may be wheeled around easily.

Great for individual breeding pairs when you want to ensure 100% accuracy of the offspring or as a sick bay. Shipped knocked down in 2 cartons. For easy assembly you only need a pair of pliers or a small wrench.

8 COMPARTMENT

Each compartment measures 22" long x 24" deep x 14" high. Easy to build, just pull open and position the wire pen walls and use a pliers and provided metal clips and that's it! Put the wire pens in the metal frame and screw with provided nuts and bolts. You're done!

Shipped by UPS. Ask for price on shipping to your zip code. Price ranges from about \$60 to about \$110 for entire shipping based on shipping zone, comes in 2 boxes. Ship USA only.

Crown Heavy Duty Plastic Trays
Item #: F1139.....\$6.95
 Pans made of heavy-duty plastic. Easy to wash. Fits the Crown 8 Compartment Breeding Pen.

Badzout Bath Salts
Item #: F5023.....\$8.50

BADZOUT [BATH SALTS] 650 g (Natural Granen)
 Badzout [Bath Salts]

DeScheemaeker's Natural BATH SALTS are a high quality product aimed at satisfying the most demanding pigeon fancier. The raw materials used in its production are the same as those used in bath salts for human consumption. There will not be any blue or yellow tingeing, as no chemical coloring is used in its composition and only natural pine extracts are used. DeScheemaeker's Natural BATH SALTS gives a soft, smooth plumage and rids the epidermis of any flakiness (dandruff) without irritating the skin. It tones up and stimulates the organism when administered in a cold bath. However, it relaxes the muscles and accelerates the recovery process at the return of races if the bath is warm. It is thus the ideal product for pigeon fanciers used to giving their pigeons a warm bath when they return from races.

Ruby Roller Pigeons For Sale

It is important to start off right when entering the hobby of Birmingham Rollers. What is more important than buying a top individual bird is getting the right family "gene-pool" to breed from.

The quality of the overall stock you are buying is the critical issue to consistently breed Birmingham Rollers capable of rolling in the proper manner.

We believe the Ruby Roller strain is able to meet this expectation. The Ruby Roller family has been developed from competition winning level rollers since 1993 and toward the Birmingham Roller Ideal.

The Ruby Roller strain is capable of producing quality rollers of anywhere from 20' to 30' and deeper with quality, velocity, good style, and good control as well as proper type.

A well bred, trained and managed kit of Ruby Rollers is fun and exciting to watch. They can be flown in competition or just for the pure enjoyment from the backyard.

It has been reported to us that some Ruby Rollers have won top honors at lawn shows and more and more are using them in flying competition and scoring well.

The primary breeding goal is to perfect and maintain what I call the 5 Primary Traits in this order:

- 1 **Rolling Ability**
- 2 **Velocity**
- 3 **Depth**
- 4 **Control**
- 5 **Type**

I recommend that in starting out you get both a Ruby Roller cock and hen. Get at least one pair, but I suggest you start with 3 pairs and breed them extensively and select the best of the crop from the sky to continue your breeding program.

For those interested in such things, the background of this family traces back to famous 3757 Pensom cock-bird and the famous 514 hen. My primary foundation cock-bird # 903 is a mere 7 generations removed from them.

We breed our stock year-round and rotate breeders to keep up with the demand. We only sell young birds and ship them out once they are weaned from the nest.

They can usually be purchased online or can be reserved to ensure you have them when you want them.

Here a few pictures of previously sold young birds to give you an idea of the look and type of rollers we have.

Typical Ruby Roller Young Birds \$59.95 Per Bird
